## Summary of Qualifications

- Ambitious Full Stack Development Engineer with great passions and innovation on coding
  - Experience building complex software systems and tests that have been successfully delivered
  - Strong grasp with Full-Stack Web Development techniques
  - Proficient in data structures, algorithmic problem solving and OOD patterns with Java and JavaScript
  - Knowledge of full software development life cycle, including coding standards, code reviews, source control management, build processes, testing, and operations
  - BS in Aerospace Engineering with innovative problem-solving and quick-learning abilities
  - Good interpersonal and communication skills with English and Chinese language proficiencies
  - Obsessive in product details, quality and customer-experience with great responsibilities
- 

## Education

**AWS Certified Developer – Associate** 02/2021 – 02/2024

- Have comprehensive understanding of application life-cycle management
- Able to develop, deploy, and debug cloud-based applications that follow AWS best practices

**Certification in Full Stack Web Development** 09/2019 – 03/2020

*University of Washington, Seattle, WA*

- Gained technical programming skills and comprehensive quick learning abilities with A+ outcome
- Self-managed and prioritized work-study duties effectively

**Bachelor of Science in Aeronautical & Astronautical Engineering** 09/2016 – 06/2018

*University of Washington, Seattle, WA*

- GPA 3.63, awarded the Robert Max Reynolds Endowed Scholarship and Hoffman Math Scholarship
  - Offered creative approaches to problem solving and worked cooperatively in a team
- 

## Technical Skills

**Language:** *Java, JavaScript*

**Front-end:** *HTML, CSS, jQuery, Angular, Bootstrap, ReactJS*

**Back-end:** *Express.js, Node.js, AWS, SQL, NoSQL*

**Testing:** *Jest, Jenkins CI/CD, Selenium, LocalStack, MockServer, Nock*

---

## Work Experience

**Software Development Engineer in Test & Team Lead** 04/2019-Present

*Beyondsoft Consulting Inc (Vendor for Microsoft & Adobe)*

- Skilled in Test Automation, Quality Assurance, Test Management, Software Development Life Cycle
- Experienced in developing UI testing automation with Selenium framework
- Championed high test standard and built E2E acceptance/nightly tests for Adobe products' feature Restful APIs using Jest
- Developed well-thought-out unit tests and implemented component tests for Adobe product services to validate and maintain the functionalities of each service
- Guided global team development efforts and drive alignment on business goals and requirements

**Co-Founder & Manager (Leadership)** 11/2018-Present

*Yummy 8 Asian Kitchen*

- Built up a great sense of marketing and developed financial plans to ensure long-term solvency
- Enhanced leadership administrative skillsets and organizational abilities with up to 10 employees

**Academic Math and Physics Tutor** 03/2015-03/2016

*Academic Success Center of Bellevue College, Bellevue, WA*

- Tutored up to 13 college students in Math (up to Calculus level) and Engineering Physics

## Relevant Projects

**Web/Mobile Applications** 11/2019

(1. Sqwash App >[Deploy](#) >[Source Code](#) 2.FavR App >[Deploy](#) >[Source Code](#))

- Developed commercially potential MERN-stack applications using MVC architectural pattern
- Utilized Bootstrap framework as frontend, Node, Express as backend and MySQL as database
- Built Rest API using CRUD paradigm (CREATE, READ, UPDATE, DELETE)
- Deployed Node.js Web Application on AWS Elastics Beanstalk with MySQL database
